

2008 Industrial Hygiene & Safety Review Course

The New Jersey Section of the American Industrial Hygiene Association (NJ-AIHA) is offering a comprehensive Industrial Hygiene Course. The course is designed to provide basic training in some critical areas of industrial hygiene and safety and will likely be beneficial for those entering the field as well as those who are just looking to sharpen their skills in certain technical areas. In addition, many of the people who have attended the program have found it to be very helpful in preparing for the CIH and CSP examinations. Certified Industrial Hygienists have the opportunity to obtain .5 CM points per lecture; up to five (5) CM points may be obtained for all the classes. Participants are welcome to attend any or all of the lecture sessions, depending on their individual training needs. People who need certification points must sign in for each session.

Industrial Hygiene & Safety Lecture Topics

*History of Industrial Hygiene	*Epidemiology	*Fire Protection & Emergency Response
*OSHA Act & IH Management	*Ergonomics	*Risk Management & Record Keeping
*Indoor Air Quality	*Biosafety	*Equipment & Facility Safety
*Ionizing Radiation	*Air Pollution	*Math, Statistics & Calculator Review
*Non-Ionizing Radiation	*Toxicology	*Physics & Basic Engineering
